SUMMARY

Motivated BCA student with hands-on experience in front-end web development and a strong foundation in modern technologies like React.js and Tailwind CSS. Skilled in building responsive, user-friendly web applications. Quick learner with strong problem-solving abilities, seeking opportunities in internships, freelance projects, and entry-level developer roles.

TECHNICAL SKILLS

- Languages: JavaScript, HTML5, CSS3
- Frameworks & Libraries: React.js, Tailwind CSS
- Tools & Platforms: VS Code, Git, GitHub, Vercel
- Other Skills: Responsive Design, UI/UX Basics, Debugging

MY PROJECTS

- **Modern Business Website (Mahak Project)**
 - Developed a modern, responsive business website with a focus on clean UI and seamless user experience
 - Designed and implemented visually appealing layouts using React, Tailwind CSS and modern frontend practices
 - Ensured full responsiveness across mobile, tablet, and desktop devices for optimal accessibility
 - Optimized website performance and loading speed for better user engagement
 - Structured reusable UI components to maintain scalability and clean code architecture
 - Focused on user-centric design to improve navigation and overall usability
 - Deployed the project using Vercel for fast and reliable hosting
 - **Personal Portfolio Website**
 - Developed a modern, fully responsive portfolio using React.js and Tailwind CSS
 - Designed a clean and user-friendly interface optimized for mobile, tablet, and desktop
 - Integrated GitHub and deployed on Vercel for seamless CI/CD workflow
 - Improved performance and loading speed through optimized components
 - **Sneaker E-Commerce Website (SNKR Base) – First Practice Project**
 - Built a responsive sneaker e-commerce UI as an initial hands-on frontend project
 - Learned and applied core concepts of HTML, CSS in real-world layout design
 - Designed basic product browsing and navigation with a focus on user experience
 - Developed foundational skills in responsive design and component structuring
-
